

Ian Cuspilich

Objective

To apply for a Quality technical role within Quality Assurance and/or Quality Control departments with responsibilities to support Quality Management System as it pertains to the labeling and packaging operations in a regulated GMP environment. To work with others, in the Quality Control position.

To obtain a career in the printing industry, applying the knowledge and skills I already obtained in previous employment and my passion to learn. To promote and initiate Quality Control concepts and oversight over all operations at a regulated organization governed under GMP standards and regulations.

Experience

2016 to Present

CCL Healthcare

Hightstown, NJ

Flexo-Press Technician

Responsible for the GMP quality and audit standards required for Labeling operations. Includes the assembling and printing labeling products using Flexographic press to meet quality specifications of pharmaceutical labeling products. Specialize in products containing up to 10 colors, multiple security types, 1 or 2 ply assembly, deaden adhesive, tamper seal, screen printing, hanger label assembly and variable printing using inkjet attachment are some types of features I am responsible for using either Gallus Labelmaster 440 and Gallus Arsoma 280. Member of safety committee. GMP conformance is mandatory.

Machine Operator III

2016 to Present

The Auditing Group, Inc.

Medford, NJ 856-437-5880

iancuspilich@auditing.com
